MEMORANDUM FOR: Deputy Director (Administration)

ATTENTION : Chief, Management Staff

REFERENCE : Weekly Report of Management Staff for Week Ending 17 September 1954.

1. In paragraph 1 of referenced weekly report under the heading "DD/I Area," reference is made by the Chief, Management Staff, to the elimination of "all of the organizational and functional conflicts" in OCI, thereby bringing under "control a potentially bad situation," thus preventing what could have become an OCI "upset."

2. In view of the fact that the IG Staff will begin a survey of the Office of Current Intelligence in the near future, this staff would be interested in having a report, in addition to the survey of the office, indicating these "organizational and functional conflicts." Any "bad situation" in an office which may provoke an "upset" is of interest to this Staff.
